

Please do not allow the newly proposed LPFM stations to take precedence over FM translator stations. I am an avid supporter of the KLOVE radio network, which provides wholesome Christian programming as an alternative to secular programming. I believe KLOVE particularly serves the public interest by offering hope and encouragement to its listeners. I have heard several testimonies of people whose lives have been radically bettered or even saved from suicide due to the positive programming. To say the least, suicide prevention is a definite social service. I believe its important to maintain a "level playing field" as well with respect to broadcasting privileges. I cannot articulate any further except to ask you once again to please reconsider the proposed changes. Thank you for your service, and God bless you. Rebecca J. Bruce
